Author's contributions

Ali Ariafar: Project development, Data collection, and management. Ali Rezaeian: Data analysis, Manuscript writing, and editing. Ali Zare: Project development. Shahryar Zeighami: Project development. Seyed Hossein Hosseini: Data collection and management, Data analysis. Hossein-Ali Nikbakht: Data collection and management. Behzad Narouie: Project development, Data analysis, Manuscript writing, and editing.

Declaration of conflicting interests

The author(s) declared no potential conflicts of interest with respect to the research, authorship, and/or publication of this article.

Funding

The author(s) received no financial support for the research, authorship, and/or publication of this article.

Research involving human participants

All procedures performed in the study that involved human participants were approved by the Ethics Committee of this study was approved by the ethics committee of Shiraz University of Medical Sciences with the ID: IR.SUMS.MED.REC.1398.092, and were in accordance with the ethical standards of the institutional and/or national research committee and with the 1964 Helsinki declaration and its later amendments or comparable ethical standards.

Informed consent

Informed consent was obtained from all individual participants included in the study.
